# WHERE INNOVATION MEETS ELEGANCE!

---

Founded in 2005 in Stratford-upon-Avon, the heart of Shakespeare country, CK Fires Ltd are a multi-award-winning manufacturer. Our Evonic Fires brand is proud to produce a range of British built electric appliances and are considered as one of the most technically advanced manufacturers in the world. Our range has a heating solution to suit any interior, with a variety of styles, sizes and flame effects to choose from.

Adding an electric fire provides a comfortable and attractive solution for those looking to add warmth and style to their living space.

---

“We strive to design and deliver sustainable products that are aspirational and driven by technology through innovation.”

ANDREW COX | MANAGING DIRECTOR

## LEADERS OF ELECTRIC FIRES

Evonic Fires occupy a 30,000sq ft manufacturing facility and produce some of the most advanced electric fires in the world, creating an abundance of products to fit any interior. Using components sourced from leading suppliers and assembled at our factory premises, Evonic Fires strive to achieve excellence with every fire we despatch. You can also be confident that in choosing an Evonic Fires appliance you are supporting British jobs, reducing your carbon footprint through shorter supply chains, and investing in a product that is built to last.

## CERTIFICATION

Our company, CK Fires Ltd, are both ISO 14001 and 9001 certified. Our ISO 14001 certification is for our Environmental Management System, which assists us in minimising our effect on the environment through more efficient use of our resources and reduction of our waste. Our ISO 9001 certification provides guidance for our Quality Management System, which assists us to fulfil requirements and ensure customer satisfaction, while continuously improving the effectiveness of our operations.

## PART OF **NIBE** GROUP

CK Fires Ltd is a group member of NIBE, a Swedish multinational company that specialises in energy-efficient and environmentally friendly heating solutions. NIBE is a world leader in heating technology, with a wide range of products and solutions for homes, commercial buildings, and industrial applications.

# Here for you...

---

## NATIONWIDE RETAILER NETWORK

With our extensive network of over 300 dedicated retailers, it has never been easier to find the Evonic fire you are looking for. Our website features a detailed search engine to locate your nearest Evonic Fires dealer, and you can even narrow the search down to find particular ranges or models using our product filter tool. Scan the QR code to view our retailers page.

---

## CUSTOMER SERVICE

Our dedicated team work tirelessly to ensure we offer the highest calibre of customer service. The Evonic Fires sales department are always on hand to answer any queries you may have regarding our products before or after you make a purchase, and our knowledgeable service department will always have time to discuss any after sales questions, to ensure you are getting the best performance from your Evonic fire.

---

## FIVE YEAR WARRANTY

All our products come with a five year cover as standard. For year one, parts and labour will be covered, and to qualify for the additional four years, parts only warranty, consumers will have to register their product on the Evonic Fires website within 30 days of purchase. During years two to five there will be a manufacturers chargeable service call out option. Scan the QR code to be taken to the product registration page.

# Setting the mood...

## CONTROLLING YOUR FIRE

Access and control the features of our fires through the e-smart cloud app on your phone or tablet. These fires are compatible with Amazon Alexa or Google Assistant for voice control. A remote handset comes as standard with all models, or can be integrated into a home automation system, such as Control 4.

## LOW RUNNING COST

Use our Energy Cost Calculator to see how affordable an Evonic fire is by visiting our website [www.evonicfires.co.uk](http://www.evonicfires.co.uk)

Based on a Halo 1500, the running cost, for 4 hours, using the flame effect only is less than 2p. Over the same period, but with turning the heat on, it's less than £1. \*

\*Energy usage based on a Halo 1500 fire. Prices are calculated using the UK: Energy Price Guarantee (April 2025) fixed unit rate of 27p per kWh. Please check your tariff for detailed cost of running. Prices rounded to nearest whole pence. Flame effect only calculation based on 4 hours usage. Heat calculation based on 4 hours of thermostatic usage with 50% duty cycle plus flame effect. Calculations do not include installation, maintenance, or servicing.

Feature lighting has now become an essential factor in the design of a living space, with many consumers choosing to integrate lighting into their cinewall to accent their fireplace, television, or simply add an extra light source to a room. Try adding the new App controlled, e-illuminate smart lighting for that extra wow factor.

# Built-ins collection

---

The built-ins collection showcases our range of stylish and contemporary inset electric fires. Featuring diverse effects, the built-ins collection offers a stunning variety of sizes and styles to suit any interior.

# Size chart...

# Cotswold fixed logs

---

We are thrilled to announce the launch of our new Cotswold fixed logs fuel beds, meticulously hand-crafted at our factory in Warwickshire. Each fuel bed is uniquely bespoke, featuring responsibly sourced real British Oak logs and authentic wood chipping details. To achieve a truly realistic charred look, each log is carefully charred by our skilled craftspeople. The fuel beds are then securely fixed using solvent-free resin, ensuring both quality and environmental responsibility.

This exceptional option is now available for our Halo, e-lectra, Volante, and Genesis built-in ranges.

Scan the QR code to view how our Cotswold logs go through production.

# Black Edition

## Introducing the Black Edition Models - Elevate Your Experience

We are thrilled to unveil our new Black Edition models, now available across all e-lectra and Volante ranges – built-ins, stoves and insets.

The Black Edition features a sophisticated black rear screen, meticulously designed to minimise reflections, and enhance the vibrancy of the flame colours, bringing your space to life with more intensity. The UHD front glass, nearly invisible to the eye, offers an ultra-clear view that perfectly complements our exquisitely crafted Cotswold fixed logs. And, the speed control feature lets you adjust the flame speed, ranging from a gentle simmer to a lively, dynamic effect.

Discover the ultimate in clarity, vibrancy, and design with the Black Edition – where innovation meets elegance.

# Genesis range

The Genesis built-in electric fires showcase the peak of modern electric fire innovation, combining state-of-the-art design with sophisticated features. Featuring a distinctive holographic 4K screen, they deliver an impressively realistic flame effect that can be customised with high, medium, or low settings. Select from the Genesis Lite (1250mm) or the Genesis 1500mm and 1860mm models. Scan the QR code to see these stunning electric fires in action.

## Specifications

- 1500W heat output
- 420mm deep
- Cotswold fixed hand-crafted logs
- e-smart cloud app or remote control
- Compatible with Amazon Alexa and Google Assistant
- Two or three-sided conversion panels included

# Glass

Our built-in models come with two premium glass options: High Definition (HD) and Ultra High Definition (UHD), each offering a unique viewing experience tailored to different preferences.

## HD GLASS:

- Designed to enhance the visual quality of the flame, HD glass provides a sharp and vibrant display with enhanced clarity.
- It features a minimal reflection, allowing you to enjoy a crystal-clear view of the flame while still offering a slight, natural mirror-like effect that can add depth to the ambiance.
- The reflective surface can subtly reflect its surroundings, giving a cozy, immersive feel that enhances the atmosphere.

## UHD GLASS:

- UHD glass is the ultimate choice for those seeking a flawless, uninterrupted view of the flame.
- Virtually eliminating all reflection, it creates the illusion that nothing separates you from the fire itself, providing a clean, ultra-clear view.
- The non-reflective surface ensures that the flame becomes the focal point of the room, delivering a more realistic and immersive experience without any distractions.

Both glass types are engineered to maintain superior heat resistance and durability, making them ideal for long-lasting performance in your space.

# TV Options

Choosing the ideal size TV is a vital aspect to consider when building your media-wall. Ideally, you want the television to be slightly narrower than the width of the fire in order for your wall not to look top-heavy. Below is a diagram and table to assist you, and dimensions of the fires can be found on pages 42-44.

TV SIZE	TV WIDTH	TV HEIGHT
32"	709mm	399mm
40"	886mm	498mm
43"	953mm	536mm
50"	1107mm	622mm
55"	1217mm	686mm
60"	1328mm	747mm
65"	1440mm	810mm
70"	1549mm	871mm
75"	1661mm	935mm
80"	1770mm	996mm
85"	1882mm	1059mm
