AURA FIRES

Founded in 2005 in Stratford-upon-Avon, the heart of Shakespeare country, CK Fires Ltd are a multi-award-winning manufacturer.

Our Aura Fires brand is proud to produce a range of British electric appliances and are considered as one of the most technically advanced manufacturers in the world.

Our range has a heating solution to suit any interior, with a variety of styles, sizes and flame effects to choose from.

Adding an electric fire provides a comfortable and attractive solution for those looking to add warmth and style to their living space.

EXEMPLARY

Customer Service

Our dedicated team work tirelessly to ensure we offer the highest calibre customer service. The Aura Fires sales department are always on hand to answer any queries you may have regarding your order.

ISO CERTIFICATION

9001 / 14001

International Organisation for Standardisation. Gaining this certification means we have been independently verified as a company that has internal systems and processes that meet recognised standards to help us improve our quality and environmental commitments.

GOING GREEN

Recyclable

At Aura Fires we firmly believe in manufacturing quality electric fires in the most ethical way possible. The packaging for our fires is constructed using cardboard that is 100% recyclable, resulting in a robust and eco-friendly carton to ensure maximum protection.

EXCELLENCE

Designed In Britain

At Aura Fires we pride ourselves on building award-winning electric fires to the highest possible standards. Using components sourced from leading suppliers and assembled at our factory in Stratford-upon-Avon, Aura Fires strive to achieve excellence with every fire we despatch. If you have any queries once your order arrives, our dedicated sales and service teams are available for any aftercare assistance you may require.

The images in this brochure are produced using photography and CGI. Although the up-most care has been taken to accurately portray our products, we always advise a viewing in person at an approved Aura Fires retailer's showroom. Aura Fires pride itself on constant development and improvement. Product descriptions are accurate at the time of publishing but are subject to change.

Beautiful Warmth

Built-ins

The built-ins collection showcases our range of stylish and contemporary inset electric fires. Featuring diverse effects, the built-ins collection offers a stunning variety of sizes and styles to suit any interior.

Choosing the ideal size TV is a vital aspect to consider when building your media-wall. Ideally, you want the television to be slightly narrower than the width of the fire in order for your wall not to look top-heavy.

Glass Front

Converting to GF / GF2 / GF3

The appliance is shipped in the GF3 configuration, however all models can be converted to be GF or GF2 depending on your preference.

The Kinver SL and Sinton ranges is supplied with the British Woodland fuel bed.

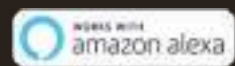

The Kinver DLX range is supplied with the Cotswold fixed hand-crafted logs fuel bed.

TV Size	TV Width	TV Height
